PRENASLASERS® / PROFESSIONAL BODY CONTOURING

GCP532 PRO

532 nm Green Laser LLLT System

A low-level green laser system for professional, non-invasive body contouring, with ten selectable lamps and a height-adjustable stand.

532 nm
GREEN LASER

10 lamps
INDEPENDENT SELECTION

2 modes
CONTINUOUS + PULSE

Adjust the lamp array to the treatment area

Select individual lamps or run them together. Adjust stand height over a 30 cm range, and use the color touchscreen to set intensity, rotation speed and session time.

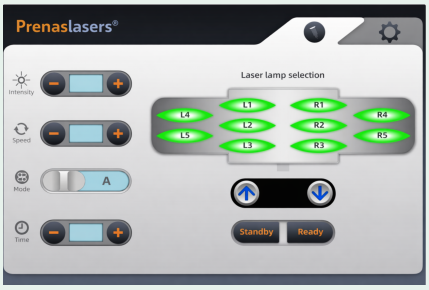

Example body areas include the abdomen, waist, back, upper arms, buttocks and thighs.

Controls & specifications

Equipment details for clinics and distributors

Operator controls

The 12.1-inch color touchscreen brings lamp selection, intensity, rotation speed, emission mode and timer into one interface. The system stops automatically when the set time expires.
